SACRAMENTO COUNTY FOR YEAR 1936

ANNUAL EGG STANDARDIZATION REPORT

	TOTAL
Number of inspections made.	1193
Total number dozen eggs represented by all samples inspected.	57641
Total number dozen eggs rejected.	3823 $\frac{1}{2}$
Total lots rejected	136

SUMMARY OF REASONS FOR REJECTIONS:

1. Dozens rejected containing eggs "unfit for human food" (Sec. 1101.)	699
2. Dozens rejected containing eggs below quality grade as marked. (Mismarked as to grade; eggs below standard grade offered to consumers (Trades).)	765 $\frac{1}{2}$
3. Dozens rejected containing eggs not conforming to weight requirement as marked. (Not uniform in size; mismarked as to weight.)	524
4. Dozens rejected account lack of required markings. (Quality and weight marks; "Dirty" or "Checks"; "Eggs", "Ranch Eggs", "Farm Eggs", or similar terms.)	1835
5. Dozens rejected account storage eggs sold as fresh; not properly invoiced and other causes.	
TOTAL	3823 $\frac{1}{2}$

Egg meetings were held with consumers and distributors for the purpose of discussing the egg law requirements.

Five distributors were called to the office for violations found in eggs sold by them to retailers

1730 Market Street
Sacramento County

Cars Loaded, fruits & vegetables shipped	8210
Trucks ✓, inspection clearance issued	5153
Cars Received, unloads	896
Trucks inspected, unloads	5461
Lots of produce rejected	2433
Total packages ✓	20627
Reconditioned	18284
Dumped or Destroyed	7343

Cars loads of fresh fruits and a vegetables
are harvested and shipped from
Sacramento County every month
during the year, This work has
been maintained for at least the past
eighteen years

infested territory shall be deemed to have originated within the infested territory and shall be amenable to all the provisions of this Proclamation unless accompanied by an official certificate issued by an agricultural inspection official of the State where the hay was loaded in the cars, establishing the fact that the hay was grown in a noninfested territory and setting forth the locality of origin.

Provision 7. Except as hereinafter provided in Provision 10, used alfalfa meal milling machinery and other machinery and implements that have been used in the baling, milling, harvesting or threshing of alfalfa will be admitted into the State of California from the said infested territory only when same have been thoroughly cleaned of all alfalfa hay or other possible source of alfalfa weevil infestation before being transported into the State of California. Any such machinery and/or implements must be held intact at destination until the Director of Agriculture, his deputy or deputies, or the state plant quarantine officer of the district or county in which such machinery and/or implements are received, has been notified and a certificate of release issued. Certificate of release as above will not be issued to cover any such machinery and/or implements contaminated with alfalfa hay until same have been fumigated or otherwise treated and all alfalfa hay cleaned out and burned to the satisfaction of the inspector making the inspection and at the expense of the owner or owners, his or their responsible agents.

Provision 8. Automobiles, automobile trailers, trucks and other vehicles, camping effects and camping equipment, from the said infested territory arriving in California shall be placed in quarantine by the Director of Agriculture, his deputy or deputies, or state plant quarantine officer of the district or county into which same arrives until it has been determined by inspection that same are free from alfalfa weevil.

Provision 9. Except as hereinafter provided in Provision 10, alfalfa seed will be admitted into California from the said infested territory only when contained in bags or containers which have not been previously used in the carrying of alfalfa products other than recleaned alfalfa seed.

Provision 10. No restrictions are placed by this quarantine upon the movement of any of the commodities and articles as quarantined against in this Proclamation from the said infested territory into that portion of the State of California now generally infested with alfalfa weevil and adjacent to the said infested territory and described as follows: All that portion of Lassen, Plumas and Sierra counties bounded as follows: Beginning at the intersection of the south boundary line of Sierra County and the California-Nevada State line; thence north along the said California-Nevada State line to the boundary line in Lassen County between townships 35 north and 36 north, M.D.M.; thence west along said boundary line to the west boundary line of Lassen County; thence southerly and easterly along the west and south boundary lines of Lassen County to its intersection with the range line between ranges 12 east and 13 east, M.D.M.; thence south along said range line to the south boundary line of Sierra County; thence easterly along said south boundary line of Sierra County to the point of beginning.

County, then easterly along said south boundary line of Sierra County to the point of beginning.
